# ANDROMEDA

*We should tell you we are a bunch of passionate visionaries. And tell you we understand the relationship between light, space and human beings so to deliver dynamic sculpted objects. Or something.*

*But that's all just words. Simple waffling. It doesn't really mean anything, does it?*

*The truth is that we are a chance to do things differently. A desire to change, improve, inspire.*

*That's why we want to show you what we do rather than just tell you.*

*And if you like it too then the chances are we should get in contact, meet up and talk all about you, rather than all about us.*

## SECTORS

### **Interior lighting | IP40**

*indoor illumination for residential, hospitality, entertainment, civic & cultural, commercial, corporate, mixed used*

### **Garden & landscape lighting | IP55**

*outdoor illumination of private gardens and public landscapes*

### **Wet areas lighting | IP55**

*illumination of shower areas, bathrooms, laundries, entries and garages*

### **Wellness and Spa | IP55**

*illumination of relaxation rooms, saunas, tubs, hamam, steambaths*

### **Aviation & Yachting | IP67**

## ANDROMEDA SCULPTLIGHTS

*Indeed we love to play with what we do and how we do it.*

*The Sculptlights are small handy light objects to warm your soul.*

*We possess a great ability to interpret dreams and make them your reality.*

*It is our desire to fulfill your desires.*

*Our tools are our hands and our minds. With these tools there is no limit to creation and transformation.*

*Let us sculpt for you.*

# K O I

## P R E M I È R E

The Koi Series is our homage to an ancient legend. A legend that enthralled East Asians civilizations for over two thousand years.

It is a story of endurance and beauty. Visually hypnotizing, Koi are described as swimming up the Yellow River, their body gleaming and dazzling like a million living diamonds. Once they reached the waterfall, only the most determined jumped into the air and reached the top of the falls.

Demons have played against them for a hundred years until one Koi succeeded and was transformed by the Gods into a shining Golden Dragon.

Because of their perseverance, Koi are symbolic of overcoming adversity and fulfilling one's destiny.

The graduations of colors and the shape we tried to imagine are reminiscent of such enchanting story.

WITH WALL CLAMP

M | MEDIUM

L | LARGE

01 - fix the portant plate to the wall

02 - make electrical cabling and put the applique in place, verify the lamp working

03 - fix the applique to the portant plate by using the screws

04 - screw the diamond to the structure

05 - same mounting scheme for the koy with toogle

don't place the lamp in this way

01 - fix the clamp to the wall

02 - place the lamp close to the wall

03 - when the lamp is touching the wall make it move to the floor side until the clamp block it

04 - screw the diamond to the structure

05 - plug the wire and enjoy

don't place the lamp in this way

*"All you see in this collection is entirely sculpted by our hands. The merging of several layers of glass and different colors too, may produce visible air bubbles or lines: these are telling you that no industrial processes are involved to deliver these tiny pieces of art."*

*"Our mission is, and always will be, to create beauty and to join our know how with the innovations of the LED sources."*
