

ANDROMEDA

LE BRIQUE (C'EST CHIC)

ANDROMEDA

We should tell you we are a bunch of passionate visionaries. And tell you we understand the relationship between light, space and human beings so to deliver dynamic sculpted objects. Or something.

But that's all just words. Simple waffling. It doesn't really mean anything, does it?

The truth is that we are a chance to do things differently. A desire to change, improve, inspire.

That's why we want to show you what we do rather than just tell you.

And if you like it too then the chances are we should get in contact, meet up and talk all about you, rather than all about us.

SECTORS

Interior lighting | IP40

indoor illumination for residential, hospitality, entertainment, civic & cultural, commercial, corporate, mixed used

Garden & landscape lighting | IP55

outdoor illumination of private gardens and public landscapes

Wet areas lighting | IP55

illumination of shower areas, bathrooms, laundries, entries and garages

Wellness and Spa | IP55

illumination of relaxation rooms, saunas, tubs, hamam, steambaths

Aviation & Yachting | IP67

ANDROMEDA SCULPTLIGHTS

Indeed we love to play with what we do and how we do it.

The Sculptlights are small handy light objects to warm your soul.

We possess a great ability to interpret dreams and make them your reality.

It is our desire to fulfill your desires.

Our tools are our hands and our minds. With these tools there is no limit to creation and transformation.

Let us sculpt for you.

"Sometimes walls are raised to stop someone, something.

We build our own walls inside our places where we live, we sleep, we make love, we sooth ourselves...

...there should be no walls, but we are humans and that's it...

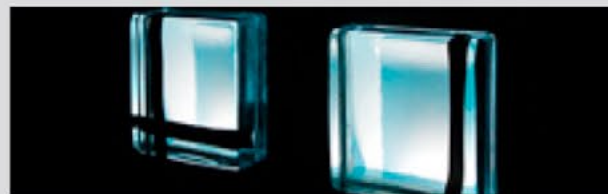

...so it came up to my mind that since I've to live with and within walls it could be nicer to light them up and smile to them, enlighting lives with their design, words, signs..."

YOU & Thanks a lot!

"All you see in this collection is entirely sculpted by our hands. The merging of several layers of glass and different colors too, may produce visible air bubbles or lines: these are telling you that no industrial processes are involved to deliver these tiny pieces of art."

"Our mission is, and always will be, to create beauty and to join our know how with the innovations of the LED sources."
