Welcome...

William Brand (1963) - an award-winning architect and sculptor - is widely recognized for his imaginative and daring sculptural lighting.

In 1989, he founded his own atelier Brand van Egmond to create without restraint.
His lighting sculptures, often perceived as art pieces, grace the finest residences, exclusive boutiques, stunning hotels and leading art exhibitions.

We welcome everybody who wants to see our designs, or would like personal advice from William Brand and his team, to our office and atelier in Naarden, The Netherlands.

BRAND VAN EGMOND

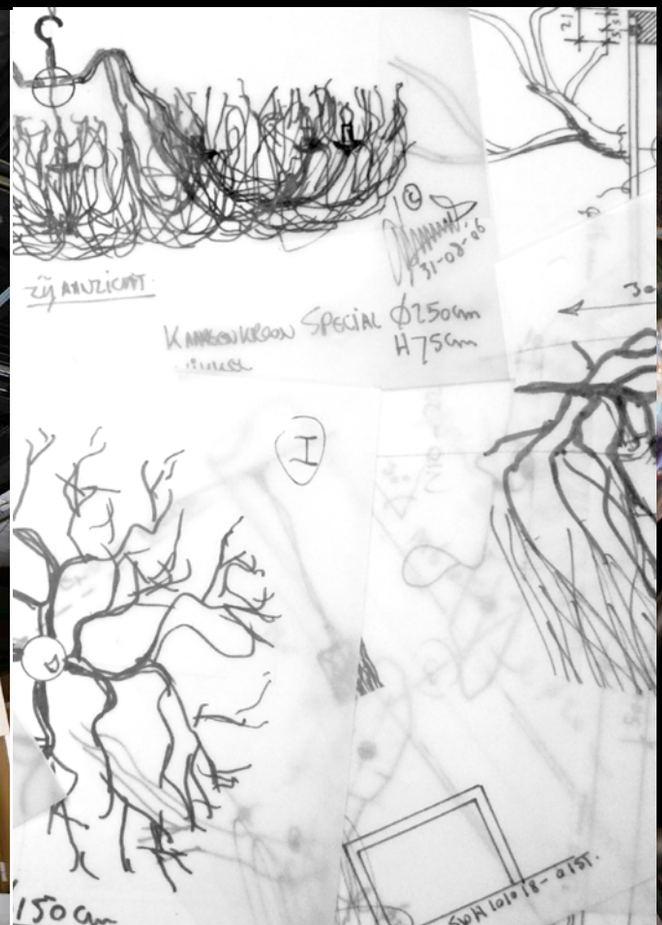

"Every design of new collections follows the same sequence. After the first sketches,
I quickly move towards the atelier and start working with new materials and shapes by myself.
Of every collection I can still feel every curve and twist literally in my hands." - William Brand.

What begins as a simple sketch with William's pen, results in a sculptural lighting object with character, crafted exclusively by hand and with love by skilled artisans, under the direct supervision of William.
All creations differ from each other and have little marks of handcrafting, like the colorful patina, grinding structure, little glass characteristics, which give each piece its individual charm.

Bubbles

Design by William Brand

Carefree bliss while blowing bubbles and being mesmerized by the soothing forms and colours. An Eden of lightness and beauty, innocent and unspoiled.

The exploration of freedom and experimentation with materials, with almost childlike delight, resulted into the Bubbles collection.

Linea

Design by William Brand

Truthful and pure, the Linea makes a precise yet playful statement through thin lines of beauty.

Floating through the sky, as if a magical formula brought to a standstill the whirlwind of steel, fire and light. Frozen, both in time as well as in space.

Just like airplanes can leave a composition of line-shaped clouds - the passing proof of human movement in the air - the Linea is like a drawing of illuminating lines in the sky. Temporarily mid-air, permanently illuminating.

Creating a beautiful light is like good architecture: a matter of proportions.

Galaxy

Design by William Brand

The galaxy is a constellation of energy, movement and form. Propelling away from the centre of gravity towards clouds of stardust and outer planets.

Avant-Garde by nature, the shapes and forms of the Galaxy relate to each other as the planets towards the sun. The artist and the dreamer both know, space is where an image grows.

The Galaxy collection fell into the 21st century without a trace of regret from a different era, lightyears away. A lasting design has to have roots.

Shiro

Design by William Brand

By means of the deduction of every unnecessary layer of decoration, a calmness of mind appears allowing for a collection to be born. The Shiro – Japanese for castle - is the result of a journey of deconstruction.

Stripped of all but the bare yet beautiful essentials, this new collection permits for a well composed equilibrium.

It allows serenity to triumph over chaos.

Orpheus

Design by William Brand

One of the most legendary poets and singers in Greek mythology is Orpheus. He sang so beautifully that he touched everyone and all around him. The King and Queen were moved to tears, but also the birds, trees and even the stones were hypnotized by his magical voice.

We have found several objects of desire amidst the nymphs and trees, and formed them into new lights. A semi-precious stone, a golden mineral, and a delicate porcelain rose—each captured in an protective embrace of finely crafted metal, finished with a rich bronze dark patina.

Orpheus-Malachite

The soft velvet look of raw malachite and its vibrant green colour have a mesmerizing effect.
Coming closer, you will see a movement and a flow of energy in its lines and circles.

Orpheus-Pyrite

An astonishing mineral, seemingly made by human hands but in fact found in nature, is called Pyrite. Given its strong resemblance to gold, it was nicknamed by gold diggers as ‘fool’s gold’.
The surfaces reflect the light in a fabulous way; creating a splendour of golden light.

Orpheus-Amethyst

This semi-precious stone, embraced through the millennia by ancient Greeks, Russian Tsars and English bishops is seen as a protector against dark magic, and a symbol for those in love.

All stones and minerals are selected with the utmost care by Brand van Egmond.
They arrive in pure, untouched and unpolished form in our hands, just as Mother Earth offers them.
All semi-precious stones differ from each other in size, shape, colour and appearance.
These are hallmarks of authenticity and should be embraced as the beauty of natural imperfection.

Louise

Design by William Brand

With almost carefree delight, William designed this Louise collection: A simple frame, decorated in a pleasing rhythm with glass lanterns.

A hint of chaos, never far away in designs from William Brand, is present: the different colours and positions of the glass lanterns have a joyful effect.

Ersa

Design by William Brand

A fresh breath of air whispers through the handcrafted branches of the Ersa. Capturing that brief moment of morning glory, when small drops of dew in nature can be found before disappearing in the air of a new born day.

Ersa derives her name from the ancient Greek's goddess of morning dew. Small dewdrops act as nature's perfume.

Kelp

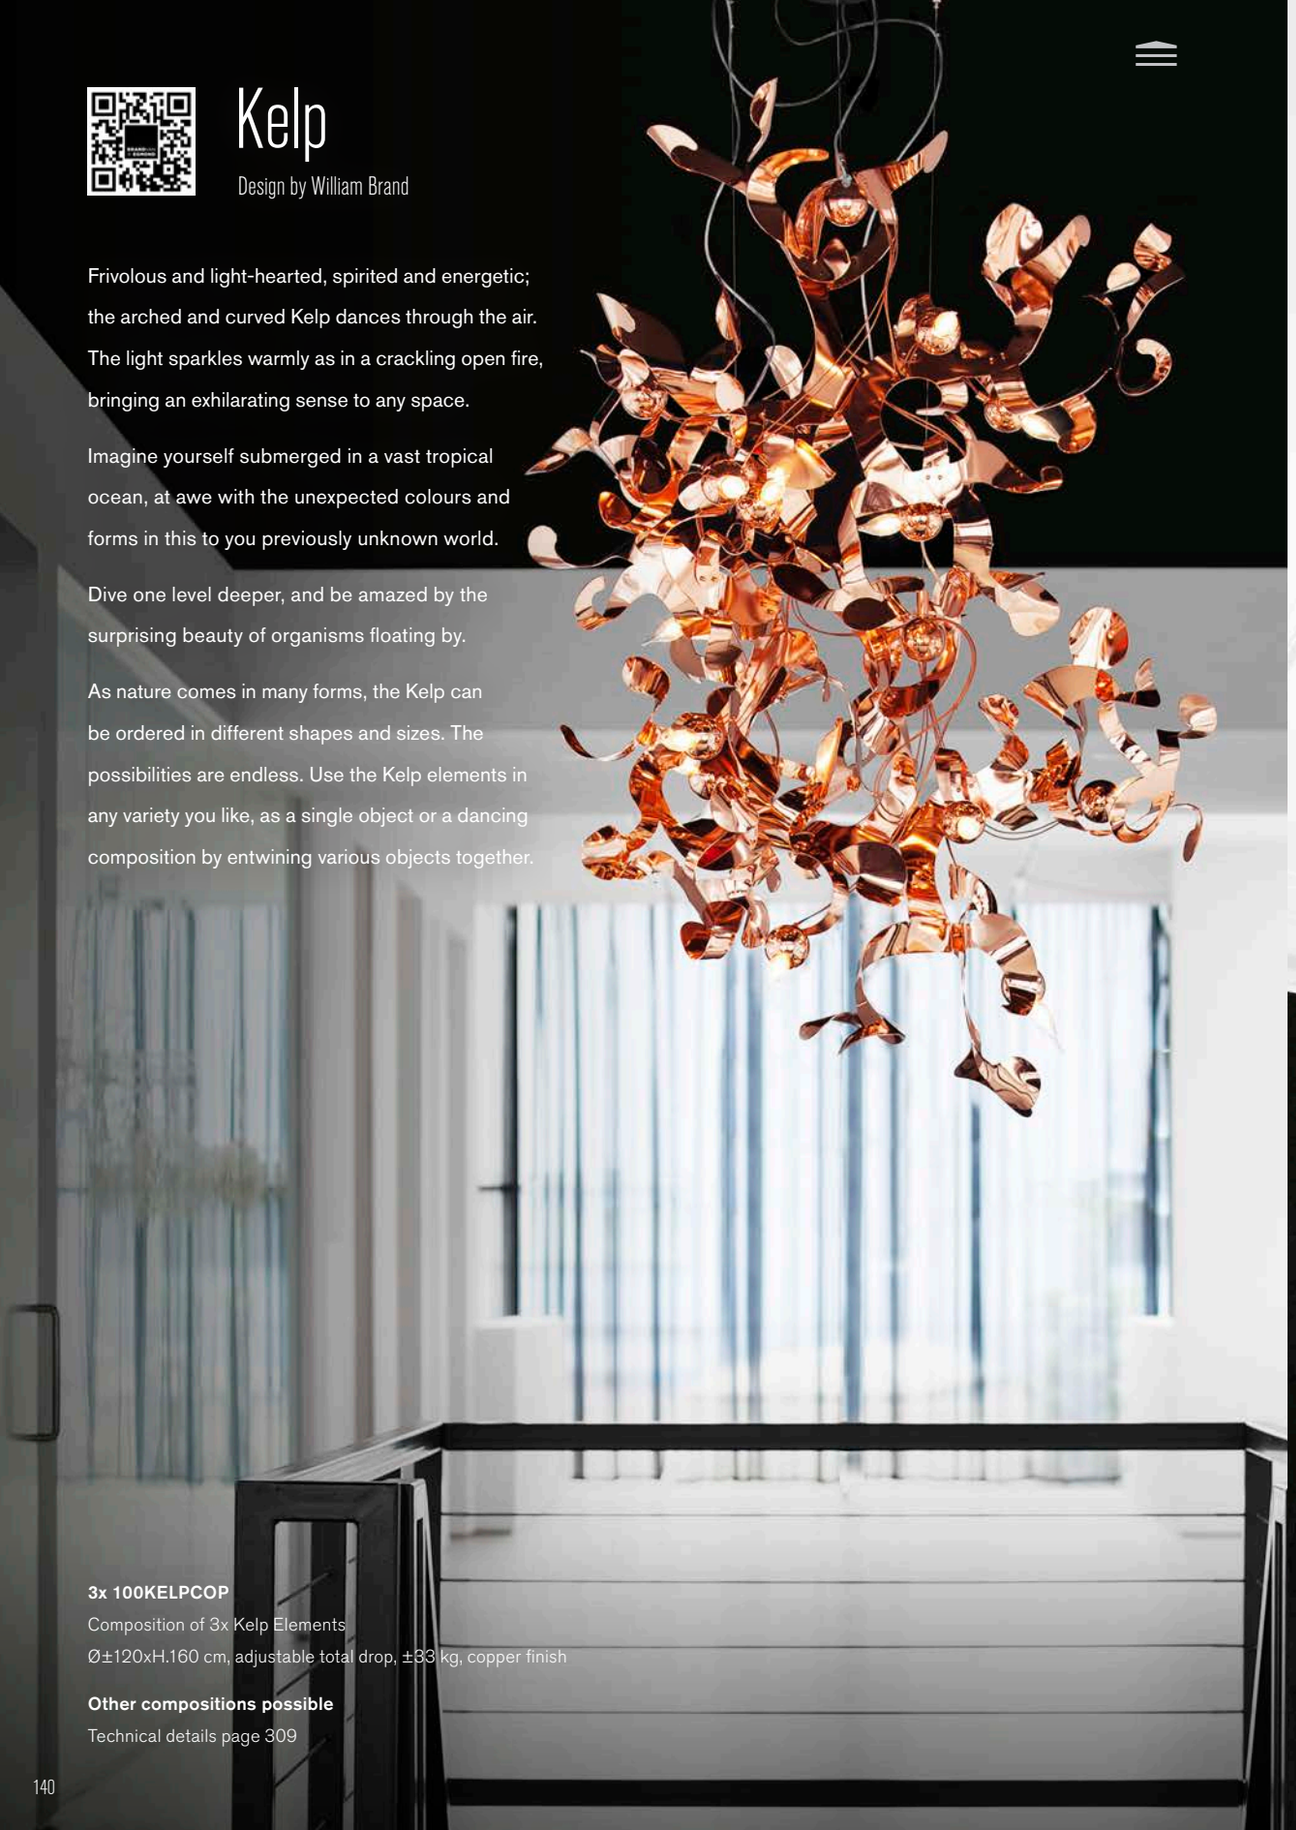

Design by William Brand

Frivolous and light-hearted, spirited and energetic; the arched and curved Kelp dances through the air. The light sparkles warmly as in a crackling open fire, bringing an exhilarating sense to any space.

Imagine yourself submerged in a vast tropical ocean, at awe with the unexpected colours and forms in this to you previously unknown world.

Dive one level deeper, and be amazed by the surprising beauty of organisms floating by.

As nature comes in many forms, the Kelp can be ordered in different shapes and sizes. The possibilities are endless. Use the Kelp elements in any variety you like, as a single object or a dancing composition by entwining various objects together.

Delphinium

Design by William Brand

It is a small step from the purity of nature to the pleasures of life, a step taken at the time of the introduction of Delphinium.
The structure of frivolous iron garlands carrying glass elements evokes an almost secret longing for times bygone.
A new stream of dancing designs comes to the fore, all with a playful hint of hedonism.

Crystal Waters

Design by William Brand

Allowing the fine wiry parts to find their own way, like water leaving a riverbed, a wide range of shapes and dimensions flow smoothly from the collection of Crystal Waters. Eventually, all things merge into one, and a river runs through it...

Hollywood

Design by William Brand

Travelling through Africa with his family, William was touched by the slenderness and pure beauty of the branches and trees scattered across the land.
Upon his return, he was invited to lighten up the yearly Academy Awards in Los Angeles.
The star filled ‘Green Room’ was energised by both the winners of the Oscars as well is this new collection: the Hollywood collection took off amidst the stars.

Hollywood Glass

Design by William Brand

In the heart of a tree, winter's stillness transforms fresh raindrops into icy glass.
Light and shadow dance together, freezing precious memories into sparkling icicles.

The Hollywood Collection, inspired by a family trip to Africa, draws from nature's majestic forces.
Slender tree branches seen on that journey now merge with the beauty of icicle formation,
brought to life through handblown glass in the Hollywood Icicles.

William Brand

founder / designer

William Brand – an award-winning designer, sculptor - is widely recognised for his imaginative and daring sculptural lighting. He was trained as an artist and an architect. He graduated at the academy of fine arts and design. His lighting sculptures, often perceived as art pieces, grace the finest residences, exclusive boutiques, stunning hotels and leading art exhibitions.

His interior designs are minimalist, in contrast to his lighting designs which have a powerful sculptural presence. His way of working is quite specific. Immediately after defining the concept he starts working like a sculptor; experimenting and crafting while having the object sculpting in his hands, often with unexpected results. Therefore the journey is just as exciting and important as the destination.

Architects and other co-creatives are invited to discover the endless possibilities of customising our lighting sculptures.

We hope to inspire you through the different colours and forms of various compositions, just as we enjoy being stimulated by your requests. William Brand's background in architecture gives him the insight to fully understand the demands and challenges of your work. Combined with his experience he is the perfect partner to translate your needs into handcrafted reality.

For our clients we not only customise to different dimensions, but also in different finishes: allowing for a truly personal lighting sculpture to be created.

CUSTOMISATION

Brand van Egmond lighting sculptures can be customised to almost any size and finish, perfectly tailored to elevate each interior with timeless allure.

CEILING COVERS | SUSPENSION

All lights are supplied with standard ceiling covers matching the specific models. Customisation can be made upon request. More details on pages 342-343.

LIGHT BULBS AND COMPATIBILITY WITH BUILDING ELECTRICAL SYSTEMS

Every lighting sculpture is supplied with a set of complimentary plug-and-play, dimmable retrofit LED light bulbs. These bulbs are easy to replace when needed and available at your local webshop supplier. They operate without build-in drivers, transformers, or dimmers and are compatible with phase-cut dimmers and popular dimmer systems like DALI. Only our floor and table lamps feature integrated LED dimmers on their cables.
Brand van Egmond does not produce or sell light bulbs. Instead, we carefully select high-quality options from trusted external suppliers. Please note that the atelier is not responsible for the quality or performance of light bulbs and cannot address any related complaints.

For detailed information on voltage, wattage, and socket base specifications for individual models, please refer to the technical details provided for both lamps and their light bulbs.

The compatibility of lights with your building's control systems must be verified and confirmed by a qualified electrician, including any terms and conditions for integration.

INSTALLATION GUIDES, CLEANING AND MAINTENANCE INSTRUCTIONS

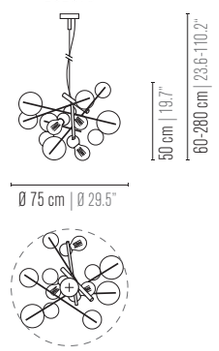

All lights are supplied with dedicated installation guides.

Options for Art Elements

The precious Orpheus stones vary in size, shape, colour, and appearance.
Due to the rarity of these precious stones and minerals, availability must be confirmed before an order can be finalised.
All stones and minerals are selected with the utmost care by Brand van Egmond.
They arrive in pure, untouched and unpolished form in our hands, just as Mother Earth offers them.
These are hallmarks of authenticity and should be embraced as the beauty of natural imperfection.
