

jaxx

floor lamp

jaxx

The jaxx collection consists of three solid floor lamps and provide an indirect light image. The “eye” on the front has a quirky and playful look and feel. The relax version is suitable as a seating object and makes an statement in every garden. Jaxx is a co-creation with designer Wesley Boom.

COCO

suspension lamp

COCO

Coco is well shaped with the least amount of fuss. Her power lies in the translucent material, which is completely illuminated by the built-in LED element. The result: a smooth fixture with a very pleasant light output.

The base of coco is made of translucent natural acrylic stone (consisting of 70% mineral raw materials and 25% of acrylate). By default, the collection is presented in three lengths (120, 160 and 200 cm), but can be produced in various lengths. In addition, the suspension brackets and brass inlay can also be adjusted to color or metal. Coco is a co-creation with designer Wesly Boom.

framed

suspension lamp circle wall circle suspension suspension up-down leaning floor lamp

framed

Framed is a collection of basic geometric shapes that are hot rolled into a steel profile. The lighting system is incorporated in the steel frame. The light lines displayed by this design emphasizes the interior architecture in a unique way. They create a light spectacle against the wall or ceiling or table.

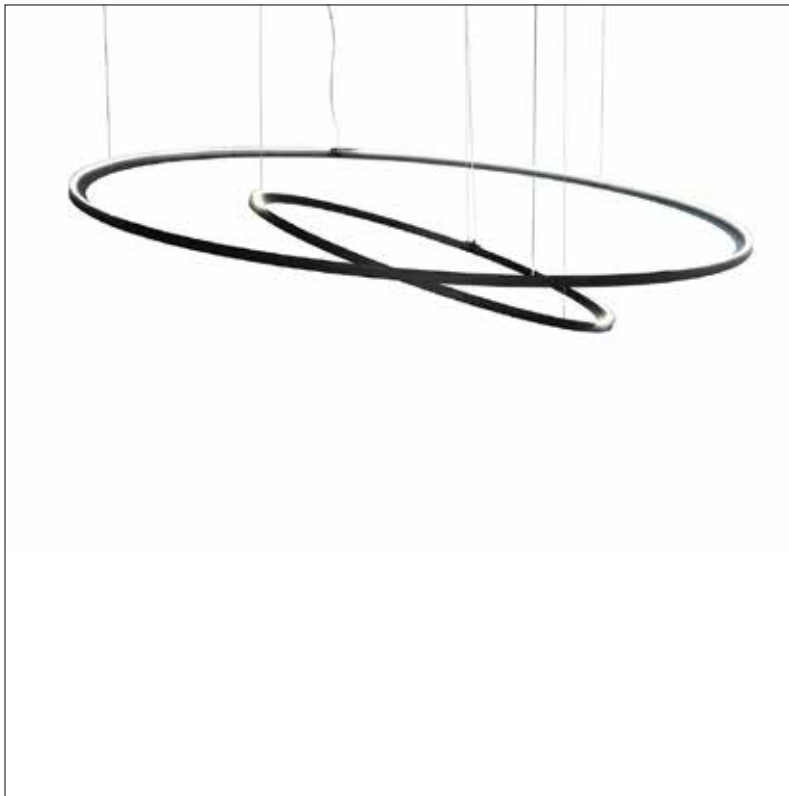

The robust steel frame gives this collection a high usability and unbounded possibilities in terms of shape and scale.

Jacco Maris Design info@jaccomaris.com www.jaccomaris.com

solo

wall lamp uplighter suspension outdoor

solo

With its minimalist design, Solo does not outspokenly call attention to itself, but in all its purity it has a quiet presence. Each luminaire is cast and polished by hand, which makes each one unique. The sand-like texture gives the lamp a warm, natural appearance and the halogen reflector provides a pleasant, diffuse light. An interesting snippet of information is that the collection is an ode to Solo, Jacco Maris's dog. His personal paw print on the back is silent witness to this.

the outsider

the outsider

The Outsider is an imposing lamp for indoor and outdoor use; an intriguing object that combines decorative simplicity with a hefty dose of robust charm. The pedestal and the arched frame are made of powder-coated steel and the shade is made of cast aluminium. The large window, made of clear glass, endows The Outsider with an illumination pattern that delights the eye.

what?

what?

This lamp takes you right back to the early days when candles had barely been replaced by electrical lights. The beginning of a whole new era. What? is constructed with high quality materials that remind you of those times but they are now linked to modern times by the use of LED technology. The wall plate is cast in bronze with a high polished part in the center. This shiny part sits directly behind the filament LED light bulb and ensures that the light is spread around the room with that familiar good old-fashioned glow.

floor lamp wall lamp table lamp

mrs.Q

The robust leather shade combined with the carefully designed metal stand characterise this new lady in the Jacco Maris collection. Mrs.Q's curve has been carefully chosen, resulting in this perfect mixture of raw elegance.

The peculiarity of Mrs.Q is in the details; the apparent simplicity of the base, the special color combination and its leather finish give this lamp a timeless, organic look and feel.

ode 1647

chandelier ceiling lamp wall lamp

ode 1647

As the name implies, the Ode 1647 collection from Jacco Maris Design is an ode to the luxurious chandeliers of the early seventeenth century. By using exciting new materials, we have created an entirely new and modern language of form. The arms are formed of braided metal. The collection consists, besides the chandeliers, of ceiling and wall lamps.

montone

chandelier oval chandelier triangle ceiling lamp

montone

The Montone collection consists of light features that are as striking as they are graceful, with continuous, twisting shapes. The various models are made of brushed or highly polished stainless steel (in various colours) and opaline glass. The continuous twists of the Montone collection are shaped by hand from strip steel. The light is emitted from the core of the lamp and is reflected by the fitting to produce an enchanting effect. The Montone collection by Jacco Maris Design is available as a hanging lamp, ceiling lamp, wall lamp, standing lamp or table lamp.

chandelier round

chandelier oval

ruban pli 

Ruban Pli  is the first collection of Jacco Maris Design. Contemporary versions of a nostalgic chandelier. This charming, transparent creation with undulating, ornamental lines in a revived Art Nouveau style is available in many different forms and versions.

For example, there is a line in rust colours with a patined brass ribbon, and also a line with a brushed or polished stainless steel ribbon and a stylish coating of anthracite powder.

paraaf

paraaf

The Paraaf collection was created in 1998 and can be described as smooth and graceful. The collection consists of decorative light features in the form of retro lamps that are expressed in a contemporary idiom. The models are made of stainless steel.

Each lamp is constructed in one dimension from a single strip of curved steel strip and pleated like a mediaeval collar. The tension in the material enhances the interesting appearance of the light feature.
