CHAT ABOUT THE NEWS, ABOUT US.

### 1ST ISSUE

Looking for a new concept of graphic communication is born instead of brochures or leaflets, a MAGAZINE. A magazine where we will talk about our products, our company but also about our Family, the Granchi Family, we will try to describe what will inspire us, feel. In this first edition you will find what we have created for the SALONE DEL MOBILE.MILANO

This year we focused on accessories giving birth to a line of lovely Duck and Swan interpreted in many ways. We also expanded our scratched natural brass line by presenting sconces and chandeliers and restyling our ICON line the CL1830 our RINGS and other table lamps inspired by our moment.

For those who visited our booth at the Show, they could see our tribute to the classic. For a special project, we made two pairs of 200cm tall vases. A custom job that for us turned out to be an important professional and artistic growth done in 6 months of work. With the approval of the our client, we exhibited the two vases at the Salone del Mobile and in the wake of this work, two new classic vases were born.

## **CL1830 Fluo**

Since last year we have been inspired by the reinterpretation of our Historical Archive which last year gave us a vast collection of lights. This year we have proposed one of our ICON collection our Rings born in 2005, source of inspiration for many, this year has been revived in phosphorescent lacquer: orange, pink, blue, yellow and green, all combined with our favorite fabric: the velvet.
